## Environmental Policy

UBC-Iraq promotes environmental management, focusing on environmental issues as one of its top management priorities. It has also formulated the Basic Policy for the Environment which lays out specific environmental strategies to be shared by all members of the company.

### UBC-Iraq's Basic Policy for the Environment

Basic Policy for the Environment is set forth below in accordance with The Essence of UBC-Iraq and Environmental Vision.

We of UBC-Iraq recognize that the basic responsibility of people living today is to hand over the precious global environment to the next generation in a sound condition. Out of this recognition and in accordance with our Environmental Vision, we will strive to create affluence and ensure coexistence with the earth. We will also contribute to realizing a sustainable society by aiming at achieving a de-carbonized and recycle-oriented society that strives to coexist with nature through our environmental activities.

### Promoting environmental management

- UBC-Iraq considers environmental stewardship to be one of management's primary responsibilities and promotes environmental activities in harmony with economic activities.
- UBC-Iraq strives to continuously improve environmental management through internal audits and reviews of activities.
- UBC-Iraq complies with all laws and regulations, industry guidelines it has endorsed, and its own standards concerning the environment.
- UBC-Iraq strives to enhance the awareness of all its employees with respect to the environment and requires that they make a practical contribution to the environment through their work.
- UBC-Iraq operates globally, and accordingly, promotes environmental activities.

### Providing environmentally conscious products and services and reducing their environmental impact through business activities

- UBC-Iraq recognizes that natural resources are finite and implements vigorous environmental measures to promote their effective and practical use in terms of both products and business processes.
- UBC-Iraq develops and provides environmentally conscious products and services which contribute to the reduction of environmental impacts throughout their life cycles.
